FLAGSCAPE® DIMENSIONAL CUT FLAGSTONE GOLDEN FOSSIL

CALIBRATED TO A NOMINAL 1" THICKNESS

Dimensional Cut Flagstone is calibrated to a nominal 1" thickness for simple installation. Flagstone can be mortar set, thin set or sand set on base. Flagstone is perfect for overlay of new or existing concrete.
Less cutting leads to minimal waste.

Available in 4 sizes

12" x 12" • 12" x 24" • 24" x 24" • 24" x 36"
and two colors *Golden Fossil* and *Steel Blue*

*Golden Fossil and Steel Blue are also available in a Bull Nose Sawn
Coping 2" thick, 12" wide and 24" long as shown at right.*

*Keep in mind that all natural stone will have shade variations and
selection should not be made from photographs alone. Photos are only
a representation of product and color may vary with each shipment.*

FLAGSCAPE® DIMENSIONAL CUT FLAGSTONE STEEL BLUE

Available Now Exclusively at Pebble Junction!

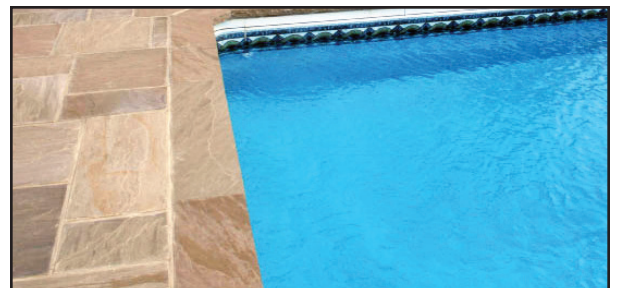

Steel Blue is a Limestone cut and calibrated to a Nominal Thickness of 1". This provides a consistent thickness which provides an advantage over using other flagstones of varying thickness such as:

- Easier to handle
- Easier to Carry
- Easier to Cut
- Easier to Install
- Less Labor Cost

Left side of photo is Steel Blue without sealer and the right side of photo is with sealer

Both Golden Fossil and Steel Blue can be laid over existing concrete or set on a bed of 3/8" stone, recycled concrete fines or crushed coquina that has been leveled and tamped. Once stone is put in place fill the joints with Polymeric Sand or 3/8" Gravel to give your job a finished look.
